**DETAILED ACTION**

***Response to Arguments***

Applicant's arguments, see Remarks, filed 9/14/2007 and 11/13/2008, with respect to the previous prior art rejections have been fully considered and are persuasive. The prior art rejections of all of the claims has been withdrawn.

The applicant's arguments against the 101 rejection of claim 16 are not persuasive because the Bilski decision only applies to process claims. The applicant is claiming a computer program and not a process. A program may carry out a process but it is not itself a process. Therefore the applicant's argument is not relevant to claim 16.

The Examiner left a voice mail with John R. Witcher, III on 2/4/2009 offering to do an Examiner's amendment to rectify claim 16 however the message was not returned after 2 business days so this Final Rejection is now issued.

***Allowable Subject Matter***

Claims 1-15 and 17 are allowed. Claim 16 is allowable over the prior art but not statutory.

The following is an examiner's statement of reasons for allowance: An updated search of the prior art did not reveal anything that would make obvious or anticipate the applicant's claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”

***Claim Rejections - 35 USC § 101***

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claim 16 is rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. Claim 16 is directed towards a program. A program is considered software per se. Software per se does not fit into any statutory category of invention.

***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
